TRADITIONAL PRODUCT SPECIFICATIONS

STANDARD CABINET CONSTRUCTION:

- Face frames are solid oak or maple, glued and nailed with mortise and tenon joints. Frame stiles and rails are 1½” wide and ¾” thick.
- Sides, tops, bottoms, shelves, hang rails, toe-kicks, fillers, skirts and drawer sides are constructed of ½” thick, medium density, industrial particleboard. Exposed surfaces are faced with melamine-coated laminate. Cabinet sides match the color of the cabinet face. Cabinet tops and bottoms match the interior color.
- Particleboard conforms to all the following Formaldehyde Emission Requirements:
 - a. ANSI 208.1 Table A
 - b. HUD CFR Part 3280
 - c. California Air Resources Board (CARB) phase II
- Particleboard is certified by the Composite Panel Association as complying to their Environmentally Preferable Product (EPP) specification CPA 3-08:
 - a. California ARB approved third party certifier TPC-1
 - b. Contains 100% recycled and/or recovered fibers (pre-consumer)
 - c. Complies with CPA EPPS 3-08, ANSI A208.1, HUD 24 CFR Part 3280, and CCR 93120 (CARB Composite Wood ATCM Phase 1)
- Decorative toe-kick overlay is 1/8” thick, melamine-faced hardboard
- Back panels are 1/8” MDF faced with melamine-coated laminate complies with CARB PH II and certified by PSI-TPC#01

DRAWERS:

- Drawers feature a five-sided box. ½” thick sides are rabbet-jointed, glued, and nailed to front and back.
- Drawer box bottoms are ¼” particleboard core, faced with melamine-coated laminate, except drawer boxes 15” wide or narrower, which have bottoms of 1/8” MDF faced with melamine-coated laminate.
- The powder-coated steel drawer runners screwed to each side, anchor the drawer bottoms in place. Drawers are installed with self-adjusting mounting brackets.
- Standard drawer slides are nylon-tired, self-closing, 55-pound rated, side-mounted, powder-coated steel.

DOORS:

- Raised panel doors feature solid oak or maple stiles and rails. Raised panel is plywood consisting of two oak or maple veneer faces and an inner particleboard core.
- Flat panel doors feature solid oak or maple stiles and rails. Center panel is plywood consisting of two oak or maple veneer faces and an inner particleboard core.
- Thermofused melamine doors are 5/8” thick with a true fused, melamine impregnated back.
- Thermofoil (3D Laminate) doors are 5/8” thick with a fused, melamine impregnated back and a durable vinyl film formed to the front and edges

TRADITIONAL PRODUCT SPECIFICATIONS

PLYWOOD UPGRADE CABINET CONSTRUCTION:

- Face frames are solid oak or maple, glued and nailed with mortise and tenon joints. Frame stiles and rails are 1-1/2" wide and 3/4" thick.
- Sides, tops, bottoms, shelves, hang rails, toe-kicks, fillers, skirts and drawer sides are constructed of 1/2" thick plywood. Exposed surfaces are faced with melamine-coated laminate. Cabinet sides match the color of the cabinet face. Cabinet tops and bottom match the interior color.
- Decorative toe-kick overlay is 3.6mm thick, melamine-faced plywood. Back panels are 3.6mm thick plywood, faced with melamine-coated laminate.

DRAWERS:

- Drawers feature a five-sided box. Sides are 1/2" thick plywood, faced with melamine coated laminate, rabbet-jointed, glued, and nailed to front and back.
- Drawer bottoms are 5.2mm plywood, faced with melamine-coated laminate. Bottoms are inset into dado groove in the drawer sides. The powder-coated steel drawer runner is screwed to each side anchor.
- Drawers are installed with self-adjusting mounting brackets.
- Standard drawer slides are nylon-tired, self-closing, 55-pound rated, side-mounted powder-coated steel.

DOORS:

- Raised panel doors feature solid oak or maple stiles and rails. Raised panel is plywood consisting of two oak or maple veneer faces and an inner particleboard core.
- Flat panel doors feature solid oak or maple stiles and rails. Center panel is plywood consisting of two oak or maple veneer faces and an inner particleboard core.
- Thermofused melamine doors are 5/8" thick with a true fused, melamine impregnated back.
- Thermofoil (3D Laminate) doors are 5/8" thick MDF with a fused, melamine impregnated back and a durable vinyl film formed to the front and edges.

CABINET CONSTRUCTION

BASE CABINET

1. 1/2" stretcher
2. 1/2" drawer box with 1/8" bottom particleboard shown
3. Epoxy coated drawer slide
4. 1/2" half-depth adjustable shelf
5. Corner block
6. 1/8" back panel
7. 1/2" bottom
8. 1/2" end panel
9. 1/2" toekick
10. Faceframe
11. Hinge mounting plate
12. Hinge
13. Door
14. Drawer front

WALL CABINET

1. 1/2" stretcher
2. 1/2" top
3. 1/8" back panel
4. 1/2" adjustable shelf
5. 1/2" bottom
6. 1/2" end panel
7. Faceframe
8. Hinge mounting plate
9. Hinge
10. Door

MODIFICATION LEGEND

NCM - No Center Mullion (Option Max is 36")

NTK - No Toe Kick

DRAWER BOX OPTIONS

PARTICLEBOARD - STANDARD

- 1/2" particleboard, 5 sided box
- Applied bottom is secured by staples and reinforced by epoxy-coated slides
- Hardboard bottom is either 1/8" for small drawers or 1/4" for drawers that are 15" or wider

PARTICLEBOARD FULL EXTENSION

- 1/2" particleboard, 5 sided box
- Captured bottom fits into a groove cut into the drawer sides, front and back
- Hardboard bottom is either 1/8" for small drawers or 1/4" for drawers that are 15" or wider

PLYWOOD

- 1/2" plywood sides and 3/16" plywood bottoms
- Captured bottom fits into a groove cut into the drawer sides, front and back
- Choice of standard or full extension slides

PLYWOOD DOVETAIL

- 1/2" plywood sides and 3/16" plywood bottoms
- Captured bottom fits into a groove cut into the drawer sides, front and back
- Dovetailed corners
- Choice of standard or full extension slides

WARRANTY INFORMATION

Thank you for selecting Leedo Cabinetry. Leedo works hard to provide an excellent product at a very competitive price. We guarantee all Leedo products for a period of ONE (1) year from the date of the completion of project installation to be free of defects in materials and manufacturing. During this period we agree to replace, at no cost to the owner, any portion of our work that is found defective.

While Leedo guarantees all structural aspects of our products for a period of one year, the following exclusions do apply:

- Due to the naturally occurring variations in wood, we do not guarantee uniformity of color, tone or grain pattern; nor do we guarantee that stain or finish colors will be free of minor inconsistencies caused by natural variations in pigments and materials.
- Damage caused by normal wear and tear, abuse, neglect, misuse, alterations, water damage, or other environmental conditions such as exposure to extreme temperatures or humidity.
- Work done by others, including refinishing or removal of cabinets.
- Touch-ups, door and drawer adjustments, or cosmetic work.
- Color changes that may occur due to natural aging of the wood or due to exposure to either natural or artificial light.
- Discoloration or dullness in the finish or wood stain that may occur after exposure to ultraviolet light.

Leedo Manufacturing will make the final determination on any warranty-related items. Should a defect in materials or workmanship occur, excluding those noted above, Leedo maintains the right to repair or replace the product at our discretion.

CABINET CARE GUIDE

A soft cotton cloth dampened with warm water is usually sufficient to clean your cabinets. If more thorough cleaning is required, use on the following cleaning solutions:

- A mixture of dishwashing liquid and warm water.
- A mild all-purpose cleaner. Make sure it does not contain ammonia, silicone, or acid.

Using the mildest cleaning solution will successfully clean your cabinets. Stronger products may damage or discolor your cabinet finish and are not recommended. After cleaning, wipe all surfaces with a clean, damp cloth. Dry immediately, using another soft, clean cloth.

Spills

Clean spills immediately. Prolonged exposure to spills, including food, water or other liquids, or grease spills can cause permanent discoloration or damage to your cabinet's finish.

Cleaning Product to Avoid

- Harsh chemicals including ammonia and bleach.
- Abrasive cleaning products such as tub and sink cleaners scouring powder, scouring pads, or steel wool.
- Sponges or dish clothes. They may contain particles that could scratch your cabinets, or they may contain food and oil residue.
- Solvent-based or petroleum-based products such as mineral spirits, nail-polish removers or paint thinners.
- Silicone-based cleaning, waxing or polishing products.

Regular Dusting

Use a clean, soft, lint-free cotton cloth for regular dusting. Packaged dusting sheets are not required or recommended. Do not use pre-moistened dusting sheets or aerosol products specified for dusting.

Waxing and Polishing

Waxing is not required or recommended. Over time, waxing and polishing compounds may build up on the surface of your cabinets and cause a hazy, streaky or yellowed appearance.

2-3/4" x 8'

©2015 LEEDO FRAMED PRODUCT LINE CATALOG 10/15

NOTICE: The framed cabinet specifications appearing herein supersede and cancel all previous sheets, supplements and addenda, and represent current manufacturing standards and procedures. Leedo Cabinetry reserves the right to make specification changes for continued product improvement. Leedo warrants all structural aspects of our products for a period of one year, excluding the results of normal wear and tear, damages that arise from misuse, and open joint lines on that occur from natural expansion and contraction of wood.

NOTE: Due to various printing limitations or monitor displays, color pictures cannot be guaranteed to exactly match the actual cabinet material.
