

CABINETS CERTIFICATIONS

ANSI A161.1

Leedo cabinetry products meet or exceed the ANSI A161.1 performance and construction standards for kitchen and vanity cabinets as certified by the Kitchen Cabinet Manufacturers Association (KCMA).

CARB Compliance – Formaldehyde Emissions

As a commitment to meet or exceed air emissions rules and regulations, Leedo has partnered with reputable providers of composite wood products used in the construction of our cabinets. End panels, bottoms, backs, shelves, toe-kicks and corner blocks will all meet the emission limits per EPA TSCA Title VI, CARB Phase 2 and HUD.

TSCA Title VI

TSCA Title VI is a U.S. regulation that sets formaldehyde emissions standards for composite wood products, such as hardwood plywood, medium-density fiberboard (MDF), and particleboard. Title VI requires composite wood products to be certified by third-party testing laboratories.

USA Manufacturer

For over 50 years, Leedo has been a recognized manufacturer of quality cabinetry for the growing housing markets across the country. We are privately owned and operate two facilities west of Houston, Texas.
